

SEEBURGER Academy

SEEBURGER Training in APAC

Training Levels and Courses Offered

Gain the knowledge you need to efficiently, effectively operate SEEBURGER Business Integration Suite (BIS) 6. Our experts will guide you through everything from user administration to monitoring, to configuration, backup and mapping.

LEVEL 1. ENTRY-LEVEL TRAINING.

Required to move to Level 2 or Solutions training. 4 days classroom or online.

This is our introduction to SEEBURGER BIS and the Business Integration Converter (BIC). Includes theory and practical learning based on the topic. Training exercises conducted in training academy / BIS VM.

Courses

- ✔ BIS Basics (S-6000) – functionality and administration
- ✔ BIC Basics (S-6420) – how to create conversions

LEVEL 2. ADVANCED-LEVEL TRAINING. OPTIONAL.

4 days classroom or online. Pre-requisite: Level 1 and experience using BIS and BIC.

Go beyond basic and dive deeper into BIS and BIC. Covers topics such as backup, restore and recovery, certificate handling and clustering. Includes theory and practical learning based on the topic. Training exercises conducted in training academy / BIS VM.

Courses

- ✔ BIS Advanced (S-6002) – administration and configuration
- ✔ BIC Advanced (S-6425) – development of conversions or connection of DB

SOLUTIONS. COMPONENT TRAINING. OPTIONAL.

Pre-requisite: Level 1. Recommended: Level 2. Classroom or online, duration to be determined based on course(s). Choose your courses based on the BIS solutions and features you'll be using in your environment.

Courses

- | | |
|-------------------------|-----------------------------------|
